

Faces Pain Scale – Revised (FPS-R)

Instructions: "These faces show how much something can hurt. This face [point to left-most face] shows no pain. The faces show more and more pain [point to each from left to right] up to this one [point to right-most face] – it shows very much pain. Point to the face that shows how much you hurt [right now]." Numbers are not shown to the resident.

Score the chosen face 0, 2, 4, 6, 8, or 10, counting left to right, so '0' = 'no pain' and '10' = 'very much pain.' Note: The scale is intended to measure how a resident feels inside, not how their face looks.
