

Home Health and Hospice Staffing Survey Deadline Extended

All **licensed and certified** home health and hospice agency owners and administrators are invited to [complete a short survey to assess the size and effects of the nursing shortage](#) in Texas.

The survey is available through August 28. Data collected from this survey will help stakeholders and legislators develop policy recommendations and establish legislative priorities. The Texas Center for Nursing Workforce Studies, part of the Texas Department of State Health Services (DSHS), is the only organization that collects this type of information.

Survey responses are strictly confidential. All findings will be reported in aggregate form only. Individual home health and hospice agencies will not be identified.

At the beginning of June, home health and hospice agencies were mailed materials to aid in completing the survey. Providers will find these materials, as well as more information about the study, on the [DSHS website](#).
